New Virtual Machine Wizard

Name the Virtual Machine
What name would you like to use for this virtual machine?

Virtual machine name:
VMW-JoseSantos

Location:
C:\Users\JDLSa\Documents\Virtual Machines\VMW-JoseSantos

The default location can be changed at Edit > Preferences.

Colocar nombre de la Maquina Virtual.

Seleccionar en caso de querer cambiar la ubicación de la Maquina Virtual.

New Virtual Machine Wizard

Specify Disk Capacity
How large do you want this disk to be?

The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine.

Maximum disk size (GB): 50.0

Recommended size for Windows 10 x64: 60 GB

☐ Store virtual disk as a single file
☒ Split virtual disk into multiple files

Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.
